

PROSPECT BRIEF

A Growth Roadmap for Sheraton Park Hotel *at the Anaheim Resort.*

Closing the gap between your renovated product and its public reputation.

PREPARED FOR TACONIC CAPITAL ADVISORS

Stay three moves ahead of your comp set.

Michael Gomez
michael@doubledrook.com

Your renovated product is rated 4.33. Your public reputation is rated 3.9.
That gap is asset value.

3.9 / 5

Lifetime headline rating

244 TripAdvisor · 2,757 Marriott.com

4.33 / 5

Last 12-month review average

30-review sample · 70% rated 5 stars

#69 / 126

Current Anaheim TripAdvisor rank

Top 25 expected at this product tier

\$33M

Renovation completed Oct 2022

Public narrative still anchored pre-2022

Marriott's managed marketing isn't built to close this gap. The work that can: review velocity, social and UGC, niche paid demand, and AI-driven operational layers. These levers live in property-controlled territory. That's where Doubled Rook works.

No. 02 — THE ASSET VALUE GAP

Below 4.0, your property is *silently filtered out* of the consideration set.

THE GAP

3.9 / 5

ALL-TIME · 244 lifetime TripAdvisor reviews

Dragged by pre-renovation and labor-strike-era reviews still in the public record.

4.33 / 5

LAST 12 MONTHS · 30-review sample, 70% rated 5 stars

The current product is performing — the rating doesn't reflect it yet.

WHY IT'S A P&L ISSUE

- The 4.0 threshold is the most common screening filter on Google Hotels, Booking.com, and Marriott.com itself.
- Sub-4.0 properties are removed from consideration sets — even when their current product performs materially better.
- Review velocity at ~20–25 / year is too slow to close the gap organically.
- A structured post-stay review program can lift the headline above 4.0 inside 12–18 months.

No. 03 — WHERE THE WORK LIVES

Marriott runs your brand. We run the surfaces *Marriott doesn't reach.*

MARRIOTT MANAGED MARKETING

- Bonvoy distribution and member acquisition
- Marriott.com brand-page content (templated across Sheraton class)
- Baseline OTA listings and brand-program advertising
- Brand-level SEO and corporate paid search
- Centralized email and CRM marketing

Strong on Bonvoy demand. Templated everywhere else.

PROPERTY-CONTROLLED (where we work)

- Reputation: review velocity, response automation, TripAdvisor narrative
- Social: TikTok and Reels-led UGC, named-staff content, creator partnerships
- Niche PPC: convention, wedding & F&B, group/sports, amenity-led clusters
- Vanity surfaces: F&B, wedding, and amenity micro-sites
- AI agent layer: OTA content sync, owner-side reporting
- Local PR & backlink research and analysis: Disney travel blogs, influencer marketing

Where your renovation story actually gets told.

No. 04 — FOUR LEVERS WORTH PULLING

Where to pull, *in order of asset-value impact.*

LEVER 01 REVIEW VELOCITY & REPUTATION

Lift the rating. Lift the asset.

- Structured hospitality rating analysis + named-staff recognition layer
- Response velocity and synthesis: Facilitate reviews and understand shortcomings to improve review scores across TripAdvisor, Marriott.com, Google, Booking, Expedia
- Target: cross 4.0 in 6–12 months

LEVER 03 NICHE PPC

Five clusters Marriott's brand campaigns don't compete in.

- Convention & business: D23, NAMM, VidCon, BlizzCon, WonderCon
- Weddings, events, F&B: 1,100-seat ballroom, Stone Hearth Pizza
- Group / sports / education · amenity-led · high-intent leisure

LEVER 02 SOCIAL & UGC

TikTok is untapped. Reels is favored by the algorithm. Facebook is sitting on free reach.

- Disney-travel creator partnerships (5K–50K followers) for UGC content
- 60,548 Facebook check-ins → check-in incentive program → reviews + UGC
- Named-staff storytelling (Victoria, Caesar, Tony, Walter)

LEVER 04 AI AGENT LAYER

Operational efficiency the management company isn't delivering.

- Review-response agent: brand-voice, GM approval, 100% / 24 hr
- OTA content-sync agent: flags brand.com vs OTA drift weekly
- Owner-side reporting in Taconic's preferred format and cadence

What this looks like *in numbers, conservatively.*

Indicative ranges drawn from industry benchmarks. Calibrated to property data in onboarding.

LEVER	MECHANISM	INDICATIVE MAGNITUDE	TIMING
Rating gap closure	Cross the 4.0 threshold → OTA filters, and Marriott.com sort weight.	Industry studies: 3% conversion lift on filter inclusion.	6–12 months
Social + UGC	TikTok & Instagram creator partnerships + Reels cadence + Facebook check-in conversion.	Incremental room nights from a discovery surface Marriott doesn't cover.	Month 2 onward
Niche PPC	Five keyword clusters: convention, weddings/F&B, group/sports, amenity, leisure.	Incremental room nights yr 1, sensitive to media spend.	Month 1 onward
Review response + OTA sync	100% / 24-hr response policy + weekly OTA content drift detection.	1–3 spot lift on TripAdvisor algorithmic rank · 5% OTA listing conversion lift.	First 90 days
TripAdvisor recovery	Rank moves from #69 → top 25 over 12–18 months via velocity + narrative work.	Materially expands consideration-set inclusion at Disney-corridor price tier.	6–12 months

Dollar modeling delivered in onboarding using Taconic's ADR, occupancy, direct mix, and media benchmarks.

The diagnostic is *already done*. Here's a comparable result.

THE AUDIT

Multi-Channel Diagnostic (full audit)

Sheraton Park Anaheim · May 9, 2026 · 7 chapters · 40+ findings

- Ch. 01 Marriott.com brand surface
- Ch. 02 Google & OTA distribution
- Ch. 03 Social media + 4 UGC concept formats
- Ch. 04 Conversion rate optimization
- Ch. 05 Paid media + 5 keyword clusters
- Ch. 06 LinkedIn, vanity, PR, AI agents
- Ch. 07 TripAdvisor review deep dive

Delivered to your team prior to this brief. Lever order in this deck is drawn directly from it.

CASE STUDY · CONFIDENTIAL · FULL-SERVICE HOTEL

8-month decline, reversed.

THE PROBLEM

Eight-month performance decline. Occupancy and ADR falling while the comp set held steady. Rising OTA reliance squeezing margin.

WHAT WE CHANGED

Rebuilt around a conversion-first system: CRO, lower-funnel PPC with intent segmentation, remarketing and email capture, and Expedia Travel Ads.

+83%

Web revenue · Dec YoY

+88%

Web revenue · Jan YoY

+46%

6 : 1

Expedia Travel Ads
ROI

What we do in the *first ninety days*.

DAYS 1–30

Foundation

- TripAdvisor + Google response automation live
- Named-staff content brief built
- Owner-side tracking and reporting baseline
- Comp set + property opportunity model calibrated
- Niche PPC clusters launched (convention, F&B, group)

DAYS 31–60

Activation

- TikTok creator partnerships briefed; first 4 UGC concepts produced
- Facebook check-in incentive program live
- OTA content audit and AI-driven sync deployed
- Local and travel blog analysis/pairing
- Vanity / F&B / wedding microsite staged (free under engagement)
- Structured, post-stay review program operational

DAYS 61–90

Optimization

- Review velocity trending toward 4.0 threshold
- TripAdvisor narrative rebuild underway
- Next-quarter roadmap delivered
- Strategize low-resource, social events to manufacture content and word-of-mouth

Clear scope. *No surprises.*

RECOMMENDED · SHERATON PARK		
FOUNDATIONS	ENHANCED	PREMIUM
\$1,000 / month	\$2,000 / month	\$3,500 / month
Right-sized for limited-service or single-channel needs. Annual planning, paid search/Meta/display, OTA management, SEO, monthly reporting.	Adds email marketing, partial F&B digital support, AI-automation consultation, and branded creative. Bi-monthly strategy meetings.	Full property scope. Adds social agency oversight, photo/video planning, social content, Influencer and blog pairing, AI implementation, full F&B support, GDS & CVB management.

INCLUDED FREE AT PREMIUM TIER

Custom vanity site buildout. Owner-controlled infrastructure for F&B, weddings, and amenity storytelling — surfaces the Marriott CMS can't accommodate. Stays with the asset.

Built for *operators* and *owners*.

01	<i>Hospitality-native</i>	Comp sets, STR, owner economics, and the actual booking journey; not generalist agency thinking.
02	<i>No commission on media spend</i>	We don't take a percentage of ad spend. Standard agency models get paid more for spending more. We don't.
03	<i>Owner-side reporting</i>	Built to fit Taconic's cadence. The math always traces back to occupancy, ADR, RevPAR, and direct mix.
04	<i>AI-native</i>	Every engagement layers automation into reputation, OTA content, and reporting.
05	<i>Senior-led execution</i>	The people who built your audit are the people executing your strategy. No bait-and-switch to junior staff.

Let's *close the gap.*

Sheraton Park Hotel Anaheim Resort deserves the rating it deserves.

Property-controlled marketing closes the distance.

LET'S WORK TOGETHER
